

The Organizing Committee of AcuPunta2015 is pleased to announce the successful conclusion of the Triple International Medical Acupuncture Congress held in Punta del Este, Uruguay, last 27-29th April 2015.

The conference consisted of three simultaneous scientific meetings: the 1st. Uruguayan Medical Acupuncture Congress, the Ninth International Congress of FILASMA (Ibero American Federation of Medical Acupuncture Societies) and XI South Brazilian Congress of Acupuncture. With an attendance of more than 200 participants, the 66 lectures and conferences presented by internationally recognized scientists in the field of Medical Acupuncture as well as the 6 practical Workshops, greatly contributed to the academic enrichment of the attendees who came from Uruguay, Brazil, Argentina, Perú, México, Spain, Great Britain and Greece.

We were specially honored by the presence and scientific contributions of two prestigious representatives of ICMART, Dr. Mike Cummings and the President Dra. Konstantina Theodoratou. With her, the Presidents of the different Country Members of FILASMA had the opportunity to exchange ideas and projects about the present and future relationship between both international organizations.

Dra. Silvia Rojo,
Pro Tempore President
FILASMA

Dr. Guillermo Chaibún
President of the
Organizing Committee

Dr. Tomas Dawid,
Pro Tempore Secretary
FILASMA
